

## Android and iOS Developer (Junior & Mid-Level Positions) - JD

### About QuGates Technologies:

At QuGates Technologies, we are pioneering the future of digital solutions, focusing on innovative and cutting-edge technologies. From AI-driven platforms to next-generation mobile applications, we are committed to creating a seamless digital ecosystem for businesses and consumers. We are expanding our team and looking for passionate, creative, and talented Android and iOS developers who can help us build world-class mobile apps for our diverse portfolio of products and services.

### Job Description:

As an Android and iOS Developer at QuGates Technologies, you will be part of a dynamic team that designs, develops, and maintains innovative mobile applications. This role offers an exciting opportunity to work on multiple app projects, including enterprise solutions and consumer-focused platforms, ensuring scalability, performance, and excellent user experience.

### Key Responsibilities:

#### App Development:

- Design and develop advanced mobile applications for Android/iOS platforms.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Ensure the performance, quality, and responsiveness of the applications.
- Identify and correct bottlenecks, fix bugs, and improve application performance.
- Work on app lifecycle management, including design, build, deployment, testing, and support.
- Integrate backend services (REST APIs, third-party libraries, cloud services) into mobile apps.

#### Innovation & Improvement:

- Explore and implement new technologies to maximize development efficiency.
- Work on continuous improvement of app performance and UX/UI elements.
- Participate in regular code reviews to ensure code quality and consistency.

#### Collaboration:

- Collaborate with UI/UX designers to create smooth, visually appealing, and user-friendly apps.

- Work closely with the product team to understand the product vision and ensure its alignment with mobile app solutions.
- Work in agile development teams, participate in sprint planning, and contribute to roadmap planning.

**Testing & Maintenance:**

- Develop unit tests, integration tests, and end-to-end tests for app modules.
- Debug and resolve app performance issues.
- Monitor, analyze, and improve app performance and usability.

**Required Skills and Qualifications:**

**For Junior Level:**

- Education: Bachelor's degree in Computer Science, IT, or a related field.
- Familiarity with Android Studio or Xcode and app development for Android/iOS.
- Basic understanding of Java/Kotlin for Android development or Swift/Objective-C for iOS development.
- Knowledge of RESTful APIs and integrating third-party libraries.
- Basic understanding of mobile design principles and UI/UX best practices.
- Enthusiasm for coding, problem-solving, and learning new technologies.

**For Mid-Level:**

- Experience: 2-5 years of professional experience in Android and/or iOS app development.
- Strong expertise in Java/Kotlin for Android development and/or Swift/Objective-C for iOS development.
- Experience with RESTful APIs, third-party libraries, and cloud-based services integration.
- Solid understanding of Android SDK and/or iOS SDK, frameworks, and build processes.
- Strong knowledge of UI/UX design principles for mobile applications.
- Familiarity with Firebase, Google Play Services, App Store, or equivalent cloud services.
- Experience in version control systems such as Git.

**Preferred Skills:**

- Experience in working with Agile/Scrum methodologies.
- Knowledge of CI/CD pipelines.

- Familiarity with mobile application security best practices.
- Experience with performance tuning, optimization, and debugging.
- Experience in publishing applications on Google Play Store/App Store.
- Familiarity with React Native or other cross-platform technologies.
- Knowledge of machine learning or AI-driven mobile applications is a plus.

#### **Personal Attributes:**

- Ability to work independently and in teams.
- Strong communication skills.
- Problem-solving mindset and innovative thinking.
- Ability to manage multiple projects and meet deadlines.

#### **Why Join QuGates Technologies?**

- Opportunity to work in a fast-growing tech company with cutting-edge projects.
- Collaborative and open culture encouraging new ideas and innovations.
- Flexible working environment (Hybrid - Work remotely or at our Bengaluru office).
- Competitive salary and performance-based incentives.
- Opportunities for learning, growth, and career advancement.

**How to Apply:** Interested candidates can apply directly at [www.qugates.com](http://www.qugates.com) or via LinkedIn or send their CV and portfolio to [interview@qugates.com](mailto:interview@qugates.com) with the subject line: Application for Android/iOS Developer - [Junior/Mid-Level].
