Best Practices

- Faculty members are specially trained in coding skills with Industry Standards on a Coding Platform **(Code tantra)** and are up-to-date with current research and development.

- **Industry Talk** is organized by the School every week by eminent personalities from the IT Industry.

- **Patent Publication** by students and faculty.

- Students are motivated to go for **Industrial Visit and Community Service** Programme and their participation is evaluated.

- The students are provided with **Summer Internship and Projects** by the Placement Department in reputed organizations.

- **Technical Exhibition** is organized from the school which motivates the students to exhibit their talents in developing APPs and Website for the commercial purpose.

- Structured Mentoring for the Students.
